Universal Studios Singapore Halloween Horror Nights 14 breathes new life into Singapore's most terrifying secrets

From 25 September to 1 November 2026, the screams from the heartlands will lead guests into the heart of evil at Universal Studios Singapore Halloween Horror Nights 14.

Fear hits much closer to home as **Universal Studios Singapore Halloween Horror Nights** is back for its 14th year with a chilling line-up of original horror experiences. From **25 September to 1 November 2026**, Southeast Asia's biggest Halloween event will see the theme park overtaken by supernatural

encounters inspired by Asian folklore, urban legends, and a twisted take on familiar Singapore icons. Fans will be putting their bravery to the test at haunted houses, immersive zones, live shows, and an all-new roving scare experience that will bring the scares right to them – wherever they are.

Enter haunted houses where the familiar turns sinister

At Karang Guni: The Cursed Collection, every trinket in his shop carries a curse, and every curse is waiting for its next victim.

Spooking guests for a third year is the **Singapore's Most Haunted** series, this time set in an abandoned broadcast studio where horrific reenactments of Singapore's darkest legends continue to play on an endless loop. This is **Singapore's Most Haunted: On Air**, where a once thriving studio festers with trapped souls for an audience that may very well suffer the same fate. In **Karang Guni: The Cursed Collection**, Singapore's humble cultural icon, the *karung guni,* is reimagined in a cruel twist of fate. Years of collecting unwanted items which – unbeknownst to him – contain the ill fortunes of their former owners – has turned the *Karung Guni* into a vessel of curses. His cluttered shophouse now lures new victims to feed the evil lurking there.

Two more haunted houses will take guests beyond Singapore-inspired horrors. **Made in Hell: Xinling Robotics** is set in a state-of-the-art Chinese bioengineering and robotics facility where human lifeforce is being harvested for artificial immortality. A rebel group has launched an attack and guests are caught in the fray between rebels, robots, and victims of the lifeforce harvesting programme. Last year's fan-favourite, ventriloquist Chatterbox Charlie from The FEARground scare zone, returns for more screams. This year, he stars in his very own haunted house, **Chatterbox Charlie's Vaudeville Horrors**, the macabre product of Charlie and his ventriloquist dummy, Junior, whose minds have become one. Fuelled by revenge for a silenced childhood, Charlie and Junior have turned their victims into gruesome versions of themselves – who will be next?

Live the horror with immersive zones, an all-new roving scare experience, and soon-to-be revealed live shows

The Raveyard is the afterlife's wildest neon-drenched rave, where undead partygoers, and eerie tunes keep the afterlife moving.

There is nowhere to run if fans survive the haunted houses – two immersive zones fill the streets with the undead. A forgotten graveyard is reborn as a neon-soaked rave realm in **The Raveyard**, which comes alive when the clock strikes dead. The Raveyard Residents rise from the different eras to finish the party that death cut short… with a little help from the living. Camouflaged in the zone are immersive photo booth experiences for fans who want to capture memories of their encounter with the afterlife.

Past The Raveyard and into Ancient Egypt, **Necropolis: The Serpent's Crossroads** awaits. Ruled by Sasu Soul Eater, its serpentine kingpin, Necropolis is a liminal crossroads where bargains are made with ancient gods, destinies traded, and souls bartered for carnal desires or deadly curses. Grotesque figures and otherworldly figures prowl at night, accompanied by eerie apparitions all around.

Horror now moves with guests beyond the immersive zones, transforming the most unexpected of places into an unpredictable stage of fear. The *Karung Guni* and Pontianak-inspired Fatimah Rockers will be prowling the park and striking without warning – turning every step into a moment of suspense.

More details on the exciting line-up of live shows, food and beverage, and merchandise will be released soon.

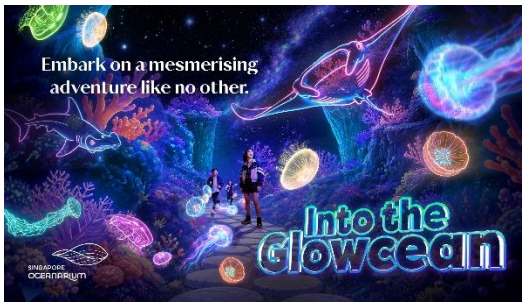
Into the Glowcean: A luminous underwater journey at Singapore Oceanarium



Embark on a mesmerising adventure like no other by experiencing the ocean in a whole new light at Singapore Oceanarium's Into the Glowcean luminous underwater journey.

At **Singapore Oceanarium**, the Festival of Thrills takes on a glowing new dimension with **Into the Glowcean**, a neon-inspired experience running from **5 September to 1 November 2026**. The experience transforms the oceanarium into a luminous underwater world where guests are invited to explore marine life through light, colour and art, from day into dusk.

A glowing new way to experience the oceanarium

Into the Glowcean presents a different side of Singapore Oceanarium, transforming it into a vibrant, multi-sensory environment that blends art, play and after-dark experiences. At its core, the experience continues to invite guests to come closer to marine life, offering new and accessible ways for visitors of all backgrounds to connect with the ocean. Through these encounters, Singapore Oceanarium hopes to inspire a deeper appreciation for marine animals and encourage the next generation of ocean stewards to care for the world beneath the waves.

A glowing ocean brought to life by Singapore's only traditional glass neon artist

At the heart of this experience is **Oceanic Glow**, a series of immersive installations by Singapore-based glass neon artist **Megan Foo (@maegzter)**. Recognised as Singapore's only artist who designs with traditional handcrafted glass neon, Megan is a keeper of a heritage craft that once lit up the city everywhere.

Oceanic Glow also marks her first solo art exhibition, where she brings together a cohesive body of work inspired by marine life within Singapore Oceanarium. Drawing on the idea of light as a form of communication, her art reinterprets how marine animals use light beneath the surface to signal desire, create camouflage, display warning or declare presence. Her installations create a glowing underwater world that unfolds across select zones in the oceanarium; each representing a different expression of language, such as curiosity, confrontation or reverence. Through this unique journey of art and light, guests will have a deeper appreciation of marine animals and ecosystems.

Hands-on experiences for curious explorers

Complementing the visual experience is a line-up of hands-on activities designed to engage families and younger guests through creativity and play. Guests create their own neon light artwork, or take part in a workshop by social enterprise, Wild Space, to design personalised deep-sea animal keychains which they can bring home as keepsakes. Interactive light painting experiences invite guests to experiment with motion and light to create glowing visuals, while face painting stations feature marine-inspired designs with neon accents for added flair. Adding a playful festive touch, a trick-or-treat experience for kids will offer sweet surprises along the journey.

Interested participants can find more information at www.rwsentosa.com/glowcean.

Seasonal encounters and glowing moments across the oceanarium

Across the oceanarium, themed encounters bring the Halloween atmosphere to life in ways that are distinctively Singapore Oceanarium. Guests can witness a special dive feeding session in the **Open Ocean habitat** featuring skeleton-costumed divers moving through the water, creating a striking visual against the backdrop of marine life. Halloween-themed marine mascots will make appearances throughout the day, adding light-hearted interaction moments for families and younger visitors.

The Glowcean experience is further brought to life through scenic decorations enhanced with glowing elements, alongside themed food and beverage offerings inspired by bioluminescent ocean life. Guests can look forward to vibrantly coloured desserts, playful snacks and specialty drinks with neon-inspired hues that mirror the glowing underwater environment.

Across selected weekends in October 2026, guests can experience live light painting performances, where artists create glowing visuals in real time using light and motion, inspired by the forms and movement of marine life. These performances will take place at the Open Ocean habitat, offering a visually engaging encounter set against the ocean's backdrop.

Complementing this is a series of illuminated violin performances and dances, which blend music, movement and light in a way that enhances the atmosphere of the glowing ocean environment.

Adventure Cove Waterpark unleashes waves of thrills this Halloween season

Pool Party Panic is a high energy, after-dark experience at Adventure Cove Waterpark that begins as an electrifying pool party, and evolves into an immersive murder mystery.

As dusk falls, the spooky season unfolds with a series of day-to-night experiences, transforming Adventure Cove Waterpark into a playground of suspense and excitement for the whole family. Headlining the event is **Pool Party Panic**, a high energy, after-dark experience that begins as an electrifying pool party, and evolves into an immersive murder mystery.

Taking place every Saturday night until 1 November 2026, guests step into a high-energy, neon-drenched pool party, until the music suddenly stops, lights fail, and a scream echoes across the water. When the floodlights return, bodies are found. What follows is an interactive 'whodunnit' where guests will work to investigate crime scenes, solve puzzles, unlock confessions and uncovers the ultimate culprit. Blending pool party energy with escape game-style gameplay, **Pool Party Panic** offers a distinctive after-dark Twilight experience where guests are not just spectators, but active participants in the unfolding mystery.

Legend Keepers: The Ocean Spirit Awakens at Adventure Cove Waterpark is a daytime experience designed for families and younger explorers.

Complementing the headline experience is **Legend Keepers: The Ocean Spirit Awakens**, a daytime experience designed for families and younger explorers. This interactive experience invites guests to step into a magical narrative where a mysterious board game has come to life, sending players on a quest across Adventure Cove Waterpark. Guided by Merli the Tide Guardian, families embark on a journey to restore the Ocean Spirit by travelling across five locations inspired by Singapore's local legends including Kusu Island, Bukit Merah and Sisters' Islands. At each stop, participants solve puzzles and uncover lost memories tied to values such as kindness, courage and loyalty, gradually progressing through the story towards a final challenge.

Designed as a playful, app-guided experience, Legend Keepers blends waterpark exploration with elements of storytelling and discovery, creating an engaging adventure that encourages teamwork and curiosity while introducing younger guests to Singapore's rich heritage.

Running from 1 September to 1 November 2026, both **Pool Party Panic** and Legend Keepers are included with every Adventure Cove Waterpark one-day ticket, inviting guests to experience a different side of the park, from sunlit exploration to after-dark intrigue. Meanwhile, brunch unfolds with a decadent, devil-may-care sophistication, where a live band sets the tone, infusing the experience with a spirited energy at RWS's specialty restaurant, **Moutarde** in WEAVE.
